Vinotheque Wine Cellars

The Boxed Up look offers fun loving wine collectors the chance to express their appreciation of wine in a non-traditional way. Inspired by world travelers, this piece identifies some wonderful wines from all over the world. Each design is an original piece of art, which, safe to say will not be duplicated. Collectors are encouraged to send in their own box ends if they wish. Available in all size cabinets, this style is a unique tribute to wine collecting.
