

Signature Series

By

Vinotheque Wine Cellars

Vinotheque Wine Cellars is proud to announce our new signature series options for our cabinets. This option offers the enhancement of crown, base and side panel mouldings, which add a touch of grace and elegance, transforming wine storage cabinets into handsome pieces of furniture. With several options to choose from, your wine will be stored not only in an efficient environment for aging purposes, but in a classic piece of furniture, which will enhance your living environment.

Cove crown:

Offering a smooth arch with a small trim piece at the top. Ideal for applying exotic Wood inlays such as bird's eye maple.

Traditional crown:

Offering a simple yet tasteful pattern which enhances the look and feel of the cabinet.

Single Panel & Double Panel

The side panels come as either a traditional rectangle, running the length of the side of the cabinet or as a rectangle over square (shown here). Let your personal taste be the judge of what fits best with your chosen door style.

Traditional base:

Offering the same match elegance as the Crown moulding. This match is certain to appeal in any environment.

Arched Base:

This arch closely resembles the arches found on our Provance and Ritz door styles. Simple yet with grace.
